* The federal law does not recognize a domestic partner as a tax dependent. Unless the domestic partner otherwise qualifies as the employee's tax dependent under Section 105(b) of IRS, contributions and coverage for your domestic partner and/or his or her eligible dependents (who have not been legally adopted by you) do not qualify for before-tax or tax-free treatment under IRS regulations. As such, any amount that Green Dot pays to cover your domestic partner and/or his or her eligible dependents will be taxable income to you. This amount is called "imputed income" and you are required to pay federal, state and local taxes as well as social security(FICA) and Medicare taxes on this amount.
